Quality, Environmental, Occupational Health and Safety Policy

We intend to progress towards our goal by adhering to the following principles:

- continuous improvement of the integrated management system implemented in the management that meets the requirements of international standards ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, CTO Gazprom 9001-2018;
- compliance with the requirements of all stakeholders and applicable laws and regulations established in the Russian Federation and the regions of work, including those related to ensuring the quality of work performed, occupational safety and health and environmental protection;
- recruitment of qualified personnel and development of professional knowledge and skills;
- ensuring safe and harmless labor conditions at each workplace;
- ensuring the implementation of projects within the agreed timeframes;
- managing a combination of risks, including environmental risks in relation to the environment and industrial risks in relation to employees;
- use of the latest working methods and technological equipment, including those with minimal environmental impact and safe for employees;
- focus on the process approach in management;
- communicating the information/requirements of the integrated management system to personnel within the company and external stakeholders;
- ensuring the participation of each employee in improving the functioning of the integrated management system;

The management of JSC “MRTS” is responsible for the implementation of this policy and the effectiveness of the integrated management system, for providing the necessary resources for this purpose, for ensuring the prevention of injuries and ill health, and for avoiding negative impacts on the environment.
